Customer Reviews

"...this book is like a treasure to me... a good read and I highly recommend it to all the people who are suffering from diabetes." Jackie - Verified Review "There's so much this book has to offer! I knew it at the first glance that I would never regret reading it" Hayden - Verified Review "...simple and clear, easy to understand... His book is filled with encouragement" Eleanor Hara - Verified Review "...really practical and I love it... This book will help you reverse diabetes in the natural way." Zaab Hayes - Verified Review "Anyone with this condition... will be able to get so much info from this book." Yoana Jackson - Verified Review

Before reading this book I was aware of how foods such as high carbs affected blood sugar. I was so happy to discover new things I did not know like how effective cinnamon, turmeric, garlic or ginger could be on lowering blood sugar. I also enjoyed the great research Randall provided with the support groups and shopping lists. The newsletter is a really nice bonus too!

Thank you for your book on diabetes. The book was an easy read and I read it from cover to cover in less than an hour. As I suffer with this problem my eyes were opened to how having diabetes could cripple a person if ignored. I watched people that I would meet for breakfast at a fast-food

restaurant lose a foot...than a leg. After reading your book I have started today following what you have shared. My meals and my exercise are now my main focus. I do not have a problem with being stressed. My problem has been stressed spelled backwards - desserts. I will keep you posted with my results as time marches on. Thank you again

Wow! I am really impressed by the information of this book cause it provide me all important details on reversing the diabetes or controlling the diabetes within my body. what I like the most on this book is it provides me a natural way on doing it. I will really Treasure this book!

A very informative quick read. Well worth the price and the time to read it. Good information on reversing diabetes. Now to put it into practice. Randall Vincent-Martin, the author, did a nice job describing the easy solution to end diabetes. The author mentioned websites to go to for support groups in following his plan of action to eating healthy and exercising; however, when I go to those websites, they do not seem to exist. I was looking for a support group in or close to Houston, and found nothing. All in all a good little book with good information and I highly recommend getting the book and applying his suggestions if you suffer from prediabetic or diabetic disease, a disease that is becoming rampant throughout not just the United States, but across every Country, it seems.

More like a flyer than a book. Was looking for more content but it just was not there.

The way the book was written makes you feel motivated and encouraged. Thank you for all the helpful tips and extras included in your book. You truly make me feel that it is actually doable and I do not feel overwhelmed. Thank you for having a heart for helping others in the diabetes-reversing process!

A good book! But if I'd read this 20...25 years ago.

Having type 2 diabetes I know i need to make some changes. The steps given make sense and seem easy to follow. Would have given 5 stars but have to see if it works. Thanks randall
