The Glitch (The Glitches Series Book 1)

Synopsis

"So good!! I love the plot and character structure!!AWESOME!!! It deserves a place in the same shelf as the Hunger Games andDivergent series!!! I LOVE IT!!!!!! Can't wait for the Empties!!"
-Katherine Atkins
"A must read forpeople looking for a creative Sci-Fi plot and interestingcharacters."
"Waiting impatiently for the next book!" - Uma (Books,Bags and Burgers).
"On the brink of extinction,being human means more than just surviving." In Lib's world, it's dangerous to deviate from the norm. In fact, for someone who doesn't live up to theArtificial Intelligence's standards, it's practically a death sentence. Liblearns this the hard way when she wakes up in a barren wasteland, with her memories erased, and only one thought lodged in her mind:
"It's all my fault." Lib is a Glitch--an imperfecthuman component of the utopian world called the Norm. Now she's thrown out, Libwill be forced to team up with another Glitch, Raj, and the mysterious RogueWolf and his clan to survive. Wolf only cares about the survival of his group,but Raj thinks they can hack the A.I. and change the Norm for the better.
Now, Lib will have to decidewhich path to choose--whether to go with striking loner Raj or stay with Wolfand his tight-knit group. Her heart is drawn to both, but she's carrying a deadly secret that could jeopardize them all. Will she be able to save hernewfound family and stop the A.I. before it's too late?

Customer Reviews

I found myself liking Lib and although she was called a glitch she had more humanity than the rogues. Her mission was clouded in vague recollections that kept you guessing but in the end her purpose becomes clear. Never one to back down or give up Liz's journey has just begun and should her secret be revealed she may lose everything.

It was the cover that first attracted me to the book. I think it's fantastic. And the book didn't disappoint. The characters come to life and the story pulls you in right away. I couldn't help but root for Lib to find her place and her purpose in the harsh world of the story. The writing is crisp and to the point. I also liked the mix of dystopian and cyberpunk elements. Overall: a very cool read, and I'll definitely be picking up books 2 and 3 to find out what happens to Lib and what the Norm is really about.

Good quick read. Book one follows a young woman named Lib. She has no memory of her life but she knows that she is different. Lib must try and survive in a wasteland that Artificial Intelligence has created. As she tries to remember who she is she must also come to terms with the fact that only she can change what the AI has created.

It could stand some better editing but it was entertaining and that's all I really ask for in a book.

Very clever concept. The first person narration keeps readers hanging on to each discovery without revealing the next move.

Really liked the story line. Excellent character development. The story is so good I plan on reading full series and fully recommend to everyone.

This is an interesting storyline that is keeping me hooked. I am not a huge fan of the writing as parts seem to be choppy and not fluid. Hoping the next book is better.

Enjoyed the book - but it ends unfinished so buying the next one to follow the story seems part of the deal.
