Selected Federal Taxation Statutes And Regulations, 2017 With Motro Tax Map (Selected Statutes)

Synopsis

This convenient selection of federal taxation statutes and regulations is designed to provide up-to-date information for students and professors alike. It includes edited provisions of the Internal Revenue Code (IRC), Treasury regulations, and various materials prepared by the Internal Revenue Service (IRS). A staple text in law schools, this informed volume is relied upon for its consistent format and extensive coverage. Detailed sections on the Internal Revenue title and Treasury regulations discuss income taxes, estate and gift taxes, employment taxes, miscellaneous excise taxes, procedure and administration, and the generation-skipping transfer tax. Detailed appendixes and a topical index are also included. The new volume contains all relevant statutory changes made since 2015, including the changes made by The Protecting Americans from Tax Hikes Act of 2015 and the Consolidated Appropriations Act (Pub. L. No. 114-113). IRS regulations are updated and the inflation-adjusted items for 2016 are included (Revenue Procedure 2015-53, Revenue Procedure 2015-30, Revenue Procedure 2016-14, Notice 2015-75, and Notice 2016-1). This title includes lifetime, downloadable access to an eBook.

Customer Reviews

Basic tax code, used for my tax classes in law school. I strongly suggest that anyone else using this book for tax class not count on using the "tax map" as a crutch, ex. on open-book exam, because I know many people who did not do well in their courses because of it. Read the code section, then read the regs to understand them.

Thorough with all the important statutes of the tax code in it. The map provides the big picture which is helpful because the individual statutes are just the trees in the forest, but understanding the tax code as a whole and what it is trying to accomplish is just as important.

This is an abridged version of the huge two-volume tax code, and it was missing only one or two sections that we went over in class (sections which were very easy to just print myself). It's like half the size and half the price of the two-volume, so for basic tax law this book worked very well.

It's the tax code. Make sure you get the right year.

Clear, organized, and easy to use and reference.

Good selection of the most commonly used I.R.C. code sections and regulations. A great source for any tax practitioner or student studying taxation.

The book which I received looks very good. I got it for a very good deal. The shipping is very fast

The text is the full Internal Revenue Code and it is helpfully for law students and ordinary people who want a hard-copy of the Internal Revenue Code. Having full access to the entire united States Internal Revenue Code can assist individuals, families, and companies in obtaining information on what items are taxed as gross income and specific items which may be used as deductions when filing for taxes. Great for people looking to find more items to deduct from their taxes!
