Nadine Bernard Westcott is well known for her award-winning renditions of such classic chants as Skip to My Lou and The Lady with the Alligator Purse.

My 4-year old nephew loves this story, so I bought him this version for his 4th birthday. We have two other versions (a really creepy old one and a newer, confusing-to-read one). This one is great; He wanted me to read it immediately! The illustrations are fabulous, engaging, and creative. I am a teacher, so I really appreciate that the visuals promoted engaged reading and discussion of the text. I also love that this book mostly maintains the classic story (the ending is altered) while adding innovative illustrations that add so much to the story. This is my new favorite version. It is adorable! One last note...In the back, they have included some tips on how to make this a more educational experience for kids. It is a good place to start if you aim to engage your kids a bit more.

Got this and all the other sing-along books I could find because my toddler loves to sing them. Worth it for the variety and to be able to sing something other than Miss Mary Mack 20 times a day.

I love this story! I read it as a kid all the time. I bought this book for a friend's kid and I got a different book than the one pictured- but I wanted the exact one pictured, so I'm pretty annoyed. I feel ripped off. I definitely could have gotten it for cheaper and the version I actually wanted.

One of my daughter's favorite books as a young child. So much fun to read! I buy this book for every baby born among my family and friends. And my cousin's one year-old seems to think it tastes as good as it reads.

I know this poem by heart but I have a great granddaughter who lives very far away, and I am unable to teach it to her. I bought this book because my grandson will read it to her like I read/said it to him ..GREATBOOK !

My son laughs every time we read it and its great size for him to carry

As described. I loved this book growing up, so I was more than happy to get it for my god daughter. The last line is different from what I remember and looked up but still a good buy.

Great board book for young children.
