Very good all is ok

I bought this book for a friend who was taking conversation classes and he enjoyed the book very much. Told me that the front cover page bended in the first days, but I guess this is expected from the type of material of these books. Overall, the content and structure of the book seemed to help him very much to improve his conversation skills.

This's my first time to buy online when I go to college. That's amazing, and save my a lot of money. The seller made me feel free to contact with, and I could get reply very soon which solve my problem. So, I feel this purchase is satisfactory, and I'll be back next time.

Just Cd.missing my book

This book was in a very bad condition in fact it worth not even one dollar.

I've been using intro, 1, 2, and 3 very effectively in the classroom. Interesting topics and useful multiple choice quiz at the end of the lectures, making it very practical for the classroom. I hope they come up with new ones, and with other topics soon.

as described
