SkyMaul 2: Where America Buys His Stuff

Synopsis

"A howlingly funny parody. The copy for the fake products is pitch perfect. I wish the Camping Coma Pills were really for sale - I'd take them." The towering sequel to a "comedy classic" (Austin Chronicle), SkyMaul 2 picks up where its "brilliantly funny" (Pittsburgh Post-Gazette) predecessor left off. Bursting with boatloads of fantastic stuff from the Catbox Viewing Dome to the Bullet-Allowing Vest to the Wearable Coatrack SkyMaul 2 will win your laughter with humor that sparkles as it cleans.

KASPER HAUSER is a sketch comedy group whose previous books include such absurdist gems as Earn Your MBA on the Toilet, Obama's Blackberry and Weddings of the Times. The group's members have written for HBO digital and appeared on Comedy Central and This American Life. They perform and produce live shows and digital content, and received a Herald Angel award for their performance at the Edinburgh Fringe festival. They live in the San Francisco area.

This catalog is so funny. So, so, so funny. I bought the original SkyMaul and figured the Kaspar Hauser guys were doing the old "Sequel Switcheroo" where they phone it in for the second one. But they didn't phone it in. They personally hand delivered it. And they wore white gloves. And it was on a platter - a silver one, possibly platinum or even whatever metal the second Terminator guy was made of. What I'm saying is they did a good job delivering the product. I would give this book to anyone I liked if I wanted to make them laugh. If there was someone I liked who I wanted to be sad, I wouldn't give it to that person. Seriously, though. This is hilarious.

You will laugh that kind of laugh where you feel embarrassed if anyone saw you laugh like that. Ugly, undulating, contorted slobber-laughing. The last half isn't quite as strong as the first, but maybe it is? Maybe the second half is actually SUPER FUNNY but the first half is just like SO SUPERCHARGED TURBOFUNNY that you can't tell? You aren't aware that you're actually punishing yourself by not having this, but you are.

This is the first time I have laughed out loud at a book in years. I'm so glad I bought this. Already bought another copy for a friend.

This book is outrageous and hilarious and obviously made by evil geniuses. It's brought me to tears on more than one occasion. I've heard the original Sky Maul is out of print which is a shame because it is equally as funny.

Hilarious

Everything I never knew I wanted from Skymall...

Captured all the subtle insanity of Sky Mall (RIP) and amplified it to true art. If you were ever stuck in an airplane as #14 in line to take off and had to read the inspiration for this product and wondered

if it was real or not, buy this book and show that you can look back on that experience and laugh.

A very fun read. You've seen these pretentious catalogs whenever you've had the pleasure of eating a handful of pretzels and a sip of soda while travelling in a flying cattle car. Quite the humorous take.
