Â pastor and church planter based in San Francisco, Francis Chan speaks to tens of thousands of people around the world every year. Known for his passionate, biblical style, Chan is on the board of World Impact and is the author of *Forgotten God*, *Erasing Hell*, and *Crazy Love*, which has sold nearly two million copies.Â

Our Accountability group was getting a little off track and decided to do a study of *Crazy Love*. I ordered the books for every body and this work book for me. It was evident after a couple of weeks that every one should have the work book as well because it made the book, which is very good, come alive with thought provoking insights and probing, revealing questions of what was in your heart. Needless to say ordered the work books for every body as well and are going to start over from chapter one.

I read the book. I got the workbook and read the original book again. The work book really went to my core. It has made me think that I honestly need to prioritize my daily routine. Some of the questions hurt but when all is finished all is finished, it leaves me in no doubt about where I need to change my life.

This is a very challenging course for all of us who feel settled in the Church, and then Francis meddles with us by using the Bible and shared experiences to cause us to question, 'Am I where I think I am with God?' Very good discussions, deep soul searching, angers and defensive responses, and true growth in our faith in God. As a group, amazing intimacy is being formed as we share around his questions. Thank you Francis, you are a gift. I only wished the video portions were longer, they are that good.

I am using this in Our Small Group Faith Group as a Lutheran Bible Study, and the study is

awesome in so many ways, teaching us how to care and love each other and how to fall in love with Jesus. If you are a Luke- Warm Christian then you need to read the book and do the study!

Great Study. Just finished a few weeks ago. Highly recommend it

I ended up ordering the Crazy Love books for my college and career class. These workbooks had very little meat to them and kept referring to Chan's book. Why bother? Kind of boring, too. We love the book itself (has short, easy-to-read chapters) and the DVD.

Not impressed.
