## **Book Information**

Series: Kaplan Test Prep

Paperback: 468 pages

Publisher: Kaplan Publishing; Third edition (July 5, 2016)

Language: English

ISBN-10: 150620323X

ISBN-13: 978-1506203232

Product Dimensions: 8.4 x 0.9 x 10.9 inches

Shipping Weight: 2.4 pounds

Average Customer Review: 3.5 out of 5 stars 44 customer reviews

Best Sellers Rank: #502,929 in Books (See Top 100 in Books) #91 in Books > Education & Teaching > Higher & Continuing Education > Test Preparation > Graduate School > MCAT #160 in Books > Education & Teaching > Higher & Continuing Education > Graduate School Guides #428 in Books > Textbooks > Medicine & Health Sciences > Nursing > Test Preparation & Review

## **Customer Reviews**

For almost 80 years, Kaplan Test Prep ([www.kaptest.com](http://www.kaptest.com)) has been helping students grow their knowledge, skills and confidence so they can be their best on Test Day. Our prep books and online resources provide the expert guidance that students need at every step of their educational journey — incorporating years of test-specific data and strategies tested by Kaplan students and our own expert psychometricians. After helping millions of students, we know what works. Our guides deliver knowledge with clarity and simplicity while focusing on the specialized strategies that keep test-takers ahead of the clock and at the top of their game. We offer preparation for more than 90 standardized tests — including entrance exams for secondary school, college, and graduate school, as well as professional licensing exams for attorneys, physicians, and nurses. With a full array of self-paced and live online courses, as well as print books and mobile apps, you can use Kaplan to study on your own schedule and at your own speed. Kaplan's private tutors and admissions consultants supplement those offerings with one-on-one support.

The material classification for this book is taken almost word-for-word from the AAMC MCAT Exam Content

Description:[https://aamc-orange.global.ssl.fastly.net/production/media/filer\\_public/f8/bc/f8bcec72-4ac3-4e5a-8c27-631d2096c569/combined\\_mcat-content\\_new.pdf](https://aamc-orange.global.ssl.fastly.net/production/media/filer_public/f8/bc/f8bcec72-4ac3-4e5a-8c27-631d2096c569/combined_mcat-content_new.pdf)Save your money and go to that link instead. This book has some helpful practice passages, but not worth the money if you're studying out of books with passages.

Do not waste your money on this book. There is so many errors it is ridiculous. Sometimes the answer key will be wrong, units off, and sometimes they miss the question in the answer key! There is far better prep material out there then this stuff. The questions are okay, but some of them are completely unlike what you will see in the MCAT. I dont usually write reviews but after reading through this one I felt as if it was necessary just because so many little things annoyed me about it. Buy something else.

This is an extremely poor study book. It's basically a list of all the topics listed on the official AAMC website without any insight on how best to study, or what might be more likely to appear on the test. Instead they basically list out the topics, and give you common sense/useless tips like guessing and eliminating wrong choices. You can literally get this information for free from the AAMC. Furthermore, the test questions are extremely mis-representative of the actual MCAT questions. When compared to official AAMC MCAT practice questions, Princeton or Exam Krackers, or even other Kaplan materials, the questions are too specific and feel wrong. Even worse, the full length exam they give you online access to is a copy of one of the exams already included in the Kaplan 7-book course! Literally everything is either copy pasted, or useless. Do not buy this book. If you need something similar, i.e. outline of the test and sample questions, I would suggest the official study guide from AAMC.

**WARNING:** They try to gip you, the online resources (including practice test) are the same as their 7-book subject review (haven't actually read the book yet, that all may be the same as well). Wasted 30-something dollars buying this hoping for an additional practice test and was **VERY MISTAKEN**.  
**Advice:** Just buy the AAMC resources instead (made by the actual MCAT makers, so more accurate), and watch the **FREE** Khan Academy Videos (very helpful).

not really worth it if you're looking for practice

I am satisfied with the Kaplan Method. I feel that the book helps me to prepare better than I could on my own.

It says that there are hundreds on MCAT questions and you should use online and the book. Online has a couple dinky videos and one practice test. Poorly described and a waste of money. Kaplan is a waste

I think the book is useless but the practice exam that came with it was okay
