Dark Enemy Taken

Synopsis

Since the dawn of human civilization, two warring factions of near-immortals - the descendants of the gods of old - have been secretly shaping its destiny. Amanda's small clan champions progress and peace, while their powerful enemy, the Doomers, propagates ignorance and war. Descending from a single goddess - the only one to survive the ancient cataclysm that wiped out her kind - Amanda's clan members are forbidden to each other. And as the only other known immortals are their hated enemies, they've been long resigned to a lonely existence of fleeting trysts with human partners. That is, until Amanda, the goddess's youngest daughter and a researcher of paranormal abilities - makes a game-changing discovery; two of her test subjects might be dormant carriers of the immortal gene. But before she can prove it, she gets snatched off a Beverly Hills street by a huge Doomer. Dalhu can't believe his luck when he stumbles upon the beautiful immortal professor. Presented with a once in a lifetime opportunity to grab an immortal female for himself, he kidnaps her and runs. If he ever gets caught, either by her people or his, his life is forfeit. But for a chance of a loving mate and a family of his own, Dalhu is prepared to do everything in his power to win Amanda's heart, and that includes leaving the Doom brotherhood and his old life behind. Amanda soon discovers that there is more to the handsome Doomer than his dark past and a hulking, sexy body. But succumbing to her enemy's seduction, or worse, developing feelings for a ruthless killer is out of the question. No man is worth life on the run, not even the one and only immortal male she could claim as her own...Her clan and her research must come first....

Language: English

ASIN: B07145R3BS

Best Sellers Rank: #80 in Books > Romance > Gothic #80 in Books > Literature & Fiction > Genre Fiction > Gothic #537 in Books > Audible Audiobooks > Romance

Customer Reviews

Romeo and Juliet can eat their hearts out. Amanda and Delhu are the real deal here. Now in the previous books, I didn't really like Delhu, but this one changed my opinion. Then again, Delhu is not the only one who has a thing for Amanda. I smell a love triangle coming! Either that or a big throwdown. Kian and Syssi remain in the series but are mainly in the background. Kian's rage for the Doomers comes to a head and we see him in a way I was even shocked to see. It will be interesting to see what happens to them. There needs to be an epic battle! Who knows what's going to happen in the next book! Lucas has kept me intrigued and tied in all the way up to this point. I love the ancient legends and the epic steamy scenes between characters. The story keeps getting better and better.

I love Amanda. She is smart, outrageous, courageous, and lustful. Reading Dark Stranger I suspected that there was more to Dalhu and I wasn't disappointed. He turns out to be a guy that is worth considering despite his dark past. The new bad guy is a different and interesting kind of antagonist. He appears charming while being unapologetically cruel and sadistic, and unlike Dalhu he is a devoted and loyal Doomer. This fourth part was really fast paced and as expected it was very sensual. I finished it in one marathon sitting and immediately moved on to the next one.

There is more than meets the eye to Amanda. On the surface she appears shallow and spoiled but on the inside she hides a deep wound. Her dramatic behavior and outward appearance are the shields she puts up against getting hurt again. If she can't feel, she can't get hurt. Dalhu is in love with the idea of having an immortal woman of his own, not any immortal woman, a beautiful professor. For an uneducated mercenary getting his hands on someone like her is the ultimate catch.

Ok. I looked it up and you can spell kidnapped with one p, but why would you? I like the books anyway but man that was really bugging me. Also if this is the sort of book you usually like, supernatural romance, just buy the boxed set, the books are short and I've wasted a lot of time going back to buy each one.

My favourite so far in the series. There was a fair bit of repetition from previous books, which I was kind of surprised by, since I thought you had to read all books in order. But actually, this one was written in a way that you could start the series with this book and not miss anything important (in my opinion). I liked both the main characters of this book. Dalhu is such a sweetheart - despite the anger management issues. Amanda is a much better heroine than that annoying Syssi too.

LOVE THIS SERIES! It's getting better and better with every book, and you learn more and more about the characters and what makes them who they are. By book 9 you feel like they are your best friends and you've known them all your life. Some are nicer than others but no one is perfect, like in real life.

This is an awesome beginning with a new set of characters while still incorporating the first ones in the series. As with the first 3 books I have not been able to put this one down. I look forward to the next ones in the series.

Just when you think you can breathe, Ms. Lucas throws you a hard ball and catches you by surprise!! This is strong and weak, rough and soft with forgiveness and rage all mixed in to one!! Great reading
