Grade 6-9-- Undoubtedly a master of suspense, Duncan has written a spellbinding tale of uniquely contemporary horror. Seventeen-year-old April Corrigan's life ends abruptly when she learns that her airline executive father has been working secretly undercover for the FBI. Now his testimony against a notorious drug dealer has placed the whole family in danger, and April and her family are quickly relocated under the Federal Witness Security Program. What begins as a temporary measure soon must become a way of life. April, an ace tennis player, has to stop playing tennis; her mother must give up a lucrative career as a children's author; their names are changed; and April's naive attempt to communicate with her boyfriend causes the violent death of an agent. The entire book is fast-paced and enthralling, but the conclusion will have readers on the edge of their chairs. April and her grandmother get involved a high-speed cross-country chase which culminates in the

death of a hit man. Although some readers will not be able to imagine having to sever completely all ties with their past, they won't be able to put this book down. Don't Look Behind You is filled with booktalk potential. --Jeanette Larson, Mesquite Public Library, Tex. I read this book in grade school and remembered loving it, so with my new Kindle I decided to download it again. They changed it! All the dated references were changed to make it read like it's current. Instead, it just reads like a cheap remake.

I am rereading all Lois Duncan books. This was good but not one of my favorites. Involved the Witness Protection Program but very entertaining and a quick read.

I really enjoyed this one. Lois Duncan is amazing!!! She is by far one of my favorite authors. Great storyteller

I had to read a book for school, as my summer project I chose Don't Look Behind You. I will recommend this book to be taught to next years English class. It was a great book! Thanks!

Bought it for my sisters reading assignment. She said she like the read.

Great book with lots of suspense. Perfect for middle school aged children. Can't wait to read the next one!

The book was interesting and include many direct and indirect objects. Great character descriptions and plenty of page turners and cliff hangers

I wanted a mystery for a 6th grader and the vocabulary here seems to fit the bill. The mystery is

good and a 6th grader can relate to what the main character is feeling.
