Firefighter Dragon (Fire & Rescue Shifters Book 1)

Synopsis

A curvy archaeologist with the find of a lifetime + a firefighter dragon shifter at risk of getting burned + a priceless artifact coveted by a ruthless rival = one blazing hot romance! When archaeologist Virginia Jones uncovers a priceless Anglo-Saxon artifact, she expects to attract academic interest -- not a dragon! Trapped in a burning building by the beast, there's only one thing she can think to do... Firefighter Dai Drake can handle dragonfire -- because he's a dragon shifter himself. But when he rescues Virginia, her touch ignites an inferno of desire even he can't fight. She's his one true mate... but how can he tell her what he is when she's convinced all dragons are bloodthirsty monsters after her gold? As Dai fights to protect Virginia, they're both at risk of getting burned. Can he show her that the only treasure he wants is her heart? Or will his secret make their growing love go up in smoke? Combining romance, action, and a generous helping of humor, the Fire & Rescue Shifters series is a must-read for fans of TS Joyce and Sherrilyn Kenyon. Each book is a standalone romance focusing on a different couple, but characters reoccur throughout the series. No cliffhangers! Warning: Contains steamy scenes between a strong, curvy African-American heroine and a Welsh dragon shifter hotter than the fires he fights. Can you handle the heat?

Virginia is an archaeologist searching for the legendary Brithelm artifact. A fellow archaeologist, Bertham, Chase's her and then a dragon Chase's her to a barn burning. Dai is a dragon shifter and firefighter. Dai rescues Virginia, discovering she is his make. Bertham still wants Brithelm dragon eye. Virginia is being hunted for the eye. They realized that they are mates. So the drama continues.....Characters are funny, strong, and sexy. The storyline is interesting and engaging reading. Highly recommended. I will get the next book in this series but I hope the author continues writing about the firefighter squad because I'd like to read about the other character's lives.bookwormsuzy@yahoo.com

I absolutely loved this book. Such a great story line so fresh and different. This is Virginia and Dai's story. Virginia is an archeologist. She's trying to find proof before the site is destroyed. Dai is a dragon shifter who is a firefighter. When Virginia dig gets her into hot water or should I say barn with a nasty dragon Dai is the one to her rescue. When Dai pulls her from the barn he knows she's his mate. The only problem besides the dragon that's after her. Now she is terrified of dragons and rightly so. Can Dai show her not all dragons are bad? Will Virginia give him that chance or will she run for hills screaming?

Such a fantastic book. Loved the story and the characters Virginia and Dai. She's an archaeologist who uncovers something very important and brings a very dangerous person after her who is something else. When she gets into a scary position she calls emergency. Dai is a dragon shifter firefighter who works with a special team of shifters. When they rescue Virginia he realizes she's his mate. He does everything he can to protect her. Really great story. Can't wait for the more.

This is my first book from this author and I highly enjoyed it. Dai is part of a special fire fighter crew that includes many creatures including fire/water dragons, phoenix, and even a pegasus. Virginia Jones is an archaeologist who is trying to find a special burial mound but upon finding a special artifact she is immediately under attack by a rival who is revealed to be a dragon. While he is trying to get to her he sets a building with her on fire and Dai and his crew responds. Dai immediately realizes that she is his mate but she is terrified of dragons after what happened to her and he lies to

her about the other half of him. Can she love him if she finds out he is a dragon as well? I love the book and I really cant wait to read the next story. I really cant wait to get to the commanders book because he is scary as well as interesting. The author writes this book very well and leaves you interested in the stories of the other members of the team.

I am rating this writing as a short story. If I had rated it as a novel, it would only have three stars. I liked the plot but it could have been longer, maybe expanding on both the romance and the other shifters' abilities. I loved the multiple references to dragons' hoards and how it means everything to them. The domination 'battles' we're fun to read about.

Thank you Zoe for another great story! Thoroughly enjoyed this novel. It kept my mind occupied when I was in the hospital for surgery. When I could keep my eyes open that is! Lol Definitely looking forward to the next one which I think should be Ash but I bet he's last! Can't put my finger on it but it seemed a little different than most shifter stories. Whatever it is, keep it up! Thanks Zoe!

Fantastic, wonderful book! Absolutely loved it. Love paranormal romance stories, especially shifters. These shifters are outstanding, especially the mythic ones. This story is funny and heartwarming and sexy all wrapped in in one delightful package. Can't wait to read more.

This book is a fantastic start to a new series. Dai and Virginia's story is awesome and has everything you could want in a book; suspense, action, comedy, drama and of course hot romance. I can't wait for more! Zoe Chant is always a must read for me.
