Well when I first got this book, I was expecting information on how to use Ghost hunters as enemies in an adventure. While the info is there, most of the book (95% of it) is devoted to playing a ghost hunter. Not a bad idea if most of the organisations weren't incredibly boring. There is a few gems here and there. The Benandanti, for example, are great in any adventure. But bright spots aside this book was a letdown. Your better of with Mediums: Speakers with the Dead. Overall a much better book.
