Contemporary Drug Information: An Evidence-Based Approach (Gaenelein, Contemporary Drug Information)

Synopsis

This innovative textbook teaches the basics of drug information, literature evaluation, and biostatistics, and relates these topics to evidence-based pharmaceutical care. Readers will learn what to look for in studies, how to critique them, and how to apply them in clinical pharmacy practice. A major focus is critical appraisal of evidence derived from different types of studies—cases, cohorts, surveys, randomized controlled clinical trials, pharmacoeconomic studies, and systematic reviews. Concluding chapters discuss clinical decision-making using evidence from studies.

Book Information

Series: Gaenelein, Contemporary Drug Information

Paperback: 370 pages

Publisher: LWW; Pck Pap/Ps edition (August 6, 2007)

Language: English

ISBN-10: 0781782805

ISBN-13: 978-0781782807

Product Dimensions: 9.9 x 7.1 x 0.4 inches

Shipping Weight: 1.2 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars 2 customer reviews

Customer Reviews

Great Book must have and Read

This book was a good supplement to what we were learning in class and helped explain difficult concepts with easy to read text and examples.
