Islam, Memory, And Morality In Yemen: Ruling Families In Transition (Contemporary Anthropology Of Religion)

Synopsis

Islam, Memory, and Morality in Yemen tells a story of a Yemeni hereditary elite which was overthrown in the 1962 revolution in North Yemen. For over a millennium, they had enjoyed exclusive rights to the leadership of the Imamate, the religiously sanctioned state. Following the violent removal from power of King Faysal of Iraq in 1958, the overthrow of the Yemeni Imamate - the longest lasting Hashimite rule in the Middle East - confirmed the decline of Hashimite power (held by ruling generations claiming descent from the Prophet Muhammad). However, rather than concentrating on recent political history, Islam, Memory, and Morality in Yemen highlights the personal predicament of those targeted by the revolution, in which they served as the foil for the new regime's moral and political ascendancy. Focusing on the cultural politics of memory, the book explores how members of the elite remember in the process of making sense of their current lives and formulating responses to adversity.

Customer Reviews

"This highly original book offers fresh insight into how traditional ideas of person, society, and responsibility, reworked in the cauldron of revolution and rapidly changing economic and political conditions, remain central to understanding contemporary society and identity politics. Always clear and accessible, Vom Bruck integrates the perspectives of women and men, seamlessly showing how Yemenis of different generations and positions in society struggle to interpret what happened to the Yemen-and to themselves-in the past. This riveting account offers vital keys to understanding

contemporary social, religious, and political trends in the Yemen and elsewhere." - Dale Eickelman, Dartmouth College

GABRIELE VOM BRUCK lectures in the Anthropology of the Middle East, Department of Islamic and Middle Eastern Studies, University of Edinburgh, UK.
