That Way Again

Synopsis

Kitty Maguire and Preston Fleming fell head over heels in love the first time they saw each other. They were planning a wedding and the rest of their lives together. But Kitty's great-aunt put an end to all that in the course of one phone call, shattering both of their hearts and ruining their lives. Neither Kitty nor Preston would have thought her capable of telling one lie, much less two. Then when she died suddenly a week later, they never found out. Five years later, Kitty comes back to Caddo, Oklahoma to sell Aunt Bertha's house and to finally put closure on the fiasco that broke her heart in a million pieces when she found out Preston had found another woman. As luck would have it, every time she turns around he's right there. The tingle is still there as well as the love, but he's married... or at least Kitty thinks he is.

Customer Reviews

I've never enjoyed a book less! After reading one of this author's other books, was anxious to read more of her writing. So totally bored and found myself skipping page after page of total nonsense. I don't know how someone could write one book so endearing and then writer something that was a

total waste of my time..and money. Try Ladies Room.....far far better..loved loved.

I'm a Carolyn Brown fan, but this one didn't live up to others of hers I've read. I just got tired of it - all bogged down in misunderstandings and emotion about halfway through, just want it to resolve and end.

It's a story about deception. Two innocent folks got deceived all because of a woman who got jilted at the altar. She hoped to spare her niece the same fate. It's a great read because the players in the story are proceeding with a great deal of caution, sometimes too much, but then they realize what was meant to be.

Enjoyed reading Kitty and Preston story. Aunt Berths was a good person but her being left at the alter she hated men so when Kitty and Preston talked about getting married she told each of them a lie and broke their hearts. After five years they try to put the pieces together again

This was a very enjoyable Irish love story....I have only one request to all authors...please quit writing a man's response of....."that's lovely"!!!! I have never heard a man say something or someone was lovely. Great story and a fun read, but not lovely!!

Great romantic story. I'm glad they took the second chance and fell in love all over again. This is my third book in your library of books but I will certainly not be the last. Keep up the great writing.

This is a great week-end book. I was turning pages so fast to see what was going to happen next. This is good reading about two young adults. It is clean reading.

This was a nice story but not much to it. I would say this book is for the younger readers or beginner romance readers. There was nothing to complain about as it was well written. Not enough depth for my preference.
