The Center Within: Lessons From The Heart Of The Urantia Revelation

Synopsis

Presenting spiritual teachings previously known to few on this planet, this book contains lessons that are based on the legendary 20th-century revelatory document known as The Urantia Book. These exercises bring the Urantia Revelation to life, unveiling for the first time the spiritual essence of this underground masterpiece in a series of practical lessons that simplify and amplify its majestic teachings. This unusual book of celestial wisdom shows that the spiritual path must eventually lead to the divine center within, the indwelling light that corresponds with the transcendent light of God. The 130 lessons restate the original teachings of Jesus--as presented in The Urantia Book--within a startling new cosmological framework.

Customer Reviews

"The Center Within can form the basis of a new and more personal understanding of The Urantia Book. As a longtime lover of The Urantia Book, I hope this book will restore vitality and a sense of purpose to this great, but still largely unknown, vision. The Center Within is a powerful new tool for spiritual growth." --Timothy Wyllie, author of *Dolphins, ETs, and Angels* and coauthor of *Ask Your Angels*"The Center Within comes from the very heart of the teachings of the numinous Urantia revelation. This awe-inspiring book should be on everyone's bedside table. May many ears and hearts be open to receive this message." --Jacquelyn Small, LMSW, founder of Eupsychia Institute" The Urantia Book is a fascinating and inspiring spiritual classic, not only for its cosmological breadth but also for its original perspective on the life and teachings of Jesus. The Center Within

provides a long-awaited introduction and explanation to some of the profound wisdom inherent within the Urantia revelation. ...I recommend [it] to all true spiritual seekers." --Michael Toms, cofounder of New Dimensions Radio

First-ever trade book presenting the spiritual essence of The Urantia Book, a supreme modern classic of spirituality, history, philosophy, cosmology, and science. The Urantia revelation is the best-kept secret of American spirituality: nearly 500,000 copies sold, 15 printings, sales rising rapidly, 7 translations current, 50 translations planned. Beautiful, thought-provoking presentation juxtaposing celestial teachings and Urantia quotes. Handy reference text on key Urantian teachings on nature of God, life and teachings of Jesus, stillness meditation, genuine prayer, discerning the divine will, finding God, artistic living, dealing with ego, family living, the celestial hierarchy, sharing truth, transforming the planet.

For those who feel the 2,097 page tome, called The Urantia Book, is too much to handle all at once, I highly recommend "The Center Within" as a heart-based way to feel God's love through the UB. Short paragraphs followed by quotations or sections of the UBook seem to be just the ticket for busy Urantians who can only manage small bites of Truth to absorb and practice daily. Patience is required reading the Big Blue Book, but having an intro book lights the fires of a spiritual seeker.

This book is a great inspiration for daily thoughts with Urantia quotes at the bottom. A highly inspired book for reading. I highly recommend I purchased several for my truth seeking friends.

This book changed my life, it really brings out the message of the Urantia book & got me into short daily meditation with my thought adjuster

very informative

A excellent tool for walking the walk in seeking spiritual growth.

I had expected a more traditional book-style text, explaining some of the principles of the Urantia book in easy language. Instead, it was in the form of short 1-2 page essays. Each one was accompanied by a matching excerpt from the Urantia book. Even though it wasn't what I expected, I enjoyed it. The channelled messages do give additional insights and advice for daily living. I'm

marking it down a bit because about 30 pages were out of order. I had considered sending it back, but the postage would not have been all covered by , plus, I thought chances were good I would get another misprinted copy. I'll keep it around to refer to from time to time whenever I need a dose of inspiration.

Good insights into the UB revelations and it cleared up some ambiguities for me. Good "exercise" program, dive in, find your wondrous being! Blessings to all

When I was first introduced to The Urantia Book a number of years ago, I was encouraged to look beyond the obstacle of authorship and judge the validity of it's message on it's content. The idea that the truth would "ring true" deep within my being was often expressed. I took this advice to heart, and as I immersed myself in it's pages, I was rewarded by a whole choir of bells ringing true within me. It pains me to think how many people out there are depriving themselves of this amazing message just because they can't deal with the possibility that the papers were authored by "superhuman beings". It really doesn't matter who wrote the papers at all, what matters is the message. I, for example, am writing this review. Very few people who read this actually know me, so the majority of you will have to ponder what I have written and take from it what you will. Why should any other message be any different? That many people will choose not to read The Center Within because of the source of it's teachings pains me as well. Many of the same Urantians who will encourage those reading The Urantia Book to look at the message and not judge the book by it's authorship will do exactly the opposite to this book. And as with The Urantia Book, those who choose to ignore this book are depriving themselves of a beautiful, uplifting, and even practical message. I would encourage everyone, Urantian or not, to open themselves to this message. I know that you will not be dissatisfied.
