This is a great song book for the young pianist. The harmonies are good in relationship to the simplified notation. The timing is tricky in many of the pieces so this is not recommended for the very young or inexperienced student. The CD makes this book. Students can play along with the tunes. The CD also helps students hear the timing in the pieces so they can replicate the timing on the keyboard at their own pace. In addition, the CD helps the student see the various timing patterns in print as they hear it from the CD.
