Wonderful book to journal the life with your father!

My father loved receiving this as a Christmas present. I ordered the conversations with my mother as well and she was just as excited. We haven't sat down to write anything yet, but as we looked through the book together, they both said the questions really required some deep thought to answer.

lets face it - if you could talk to your dad - you wouldn't be looking here... ok, I'm joking.. this is wonderful. the prompts are inspired, you can always add to it... get this - you and your children will thank you.

This is a wonderful book for exploring your father's life. There are so many questions from which to pick and choose. The blank section at the back is nicely setup for additional writing or other questions. The book itself is sturdy and well-made. Fantastic deal.

Working on this with my Dad is a treasure in itself, I think he is enjoying it as much as I am.

Sentimental gift to give and enough said

This, along with the Mother version, is a great gift for someone who has everything already. I wrote an inscription inside the book and gifted them to teenage twins who fell in love with the idea and began filling it out the same day. Great gift.

Nice, but more of a scrapbook than meaty questions.

It's made very well! It has opened up interesting and meaningful conversations with my father. It's definitely something I will cherish for the rest of my life.
