## Customer Reviews

Numbers rule this world. That example with checking time in certain moments like 12.12 is brilliant. It's very famous to me. Sometimes it looks like 21.12. I was happy to learn that it is a good token. It says that you are on the right way. You meet digits and numbers everywhere. We estimate

everything by numbers. We make difference between things with help of numbers too. Possibly you have not paid attention to this previously. Well, you will now after reading this book.

This is a useful book on Numerology. All of the things, tips and guides that I need to know about Numerology, Astrology, Tarot Cards are already included and well written enough inside. Marianne Gracie has done a good job in compiling and creating this book of Numerology. This book is really a helpful resource for those who to learn more about Numerology, Astrology, Tarot Cards.

I always believed in numerology and this book is very well researched and very easy to comprehend. I really liked this book as it has also provided information on few things which I was not really sure about and was researching on my end. This book is really very informative. Great book!

Numerology is a fascinating topic. There are so many symbols and meaning imprinted throughout our daily lives in the least expected places. I found someone that reads into things a lot, and so I had a deep fascination with Numerology. Interesting read.

Excellent book. Easy to read and understand.

Helped me understand numerology a lot better!!!! Will use this on my family and friends. Thanks for publishing this wonderful book.

This. Book was very interesting. Lots of facts and new things to review. I enjoyed the step by step instructions

This book is the truth. A page turner. Great advice and techniques. All things truthful, love it. I will buy the hard copy anyway.
