DMV Test "HOW TO PASS ON YOUR FIRST TRY"

Synopsis

The DMV Permit Test – “How to Pass on Your First Try!” – Over 200 practice test questions! A must-have for anyone who would like to pass on their first try. We show you what to study and how to beat the test. The thought of getting your driver’s license can be a little bit intimidating, but with a few simple guidelines and test taking strategies, you’ll be well on the road to success. Did you know that 70 percent of first-time test takers fail the DMV permit test? Our practice tests have over 200 test questions and are an excellent way to prepare you for the actual written test. Since the book has visual diagrams that go along with the questions, it is geared towards students who are visual learners. The book is split into two sections: The Traffic Signs Test (visual signs included) and The Road Way Test. Each test contains questions that are very similar to the actual test questions. By preparing, using these supplemental practice questions, as opposed to reading and rereading the DMV driver handbook which is very time consuming and can be a waste of time, you will learn basic driving skills, road sign and traffic signal meanings, when to pull over for emergency vehicles, speed limits in various zones, how to handle accidents, and much more. You will also learn how to answer the trick questions which appear time and time again on the test! Also included in the book are valuable test taking strategies, safe driving tips, and safe driver checklists. Passing the first time will save you money, time, and the stress of having to study again. It will also give you confidence and prepare you for the road driving test. With a little preparation and concentration, you can master the rules of the road and navigate your next driver’s license test with confidence.

Customer Reviews

I bought this book for my son to help him pass the permit test. He isn't strong academically, but he was able to pass the test using this book! His Driver's Ed teacher gave him the DMV booklet and a few sample practice questions to help him prepare, but he still felt intimidated about taking the test. Flipping through the DMV booklet seemed like a waste of time because he wasn't learning anything. That's when I found this book. Happy I did. He brought it everywhere with him and read through all 200 practice questions! I learned a lot too, things I didn't know about, like texting and driving and the odds of getting into a wreck. A great book to have.

This is a great book to help you study for your written test. You get more than 200 real DMV questions and the answers in the back of the book. I like how the questions are separated into different subjects - road signs, driving, regulations.... So full 5 stars on the content. What I don't like is that the Kindle edition is a little too bulky to use. You would normally do 10 or 20 questions, check the answers, then do 10 more. There are no links to the answers, and as the answers are all the way in the back, you spend half your time flipping back and forth. I got another DMV practice test - The New York DMV Driver Test Q & A. All the questions were separated in groups of 10, and at the end of each group you have a link to the answers for that group. Then you have a link from the Answers section back to where you left off in the Questions section. That makes it very easy to go back and forth and actually prepare for the test. In terms of the questions themselves - they cover pretty much everything. I also got the DMV app from - I like the app the best to be honest but this book was a good complimentary preparation. I would recommend this to anyone trying to get a drivers license in NY

Just buy it. It isn't some magical book with all the answers but it's good and is insightful. All I did was I read over my drivers Ed, looked at a few quizlet study guides, read this book, and I passed my first time (got 8 wrong lol but whatever still passed)

It's amazing how many road rules we experienced drivers have forgotten. Taxi drivers too. Every passenger who doesn't even drive yet should know the contents of this book. Better to be prepared way in advance of the exam than cram at the last minute.

Perfect for your permit. I don't only recommend reading this one book take pre-test this book kinda leaves things out

Bought for someone taking the test. It is very helpful in passing the test.

The description talks about helpful diagrams for visual learners... "Since the book has visual diagrams ...". The ONLY visuals in this book are icon sized grayscale images of some traffic signs. Overpriced and I feel scammed.

I passed no problem also I haven't taken the test in thirty years,had to retake the test when I turned 70.
