Synopsis

"Alien Lake" Series - Discover NOW The New Alien Sci-Fi Romance Series by Patricia Moore! Exciting - Fantastic - Romantic - Hot & Steamy! Kate has never lived a day in her life, but that's about to change. She goes through the motions working a dead-end job with a boss that doesn't really know what she's worth. She makes everybody's lives easier, but it comes at the cost of her own jaded soul. She doesn't believe in love and she has no idea that life is full of mysteries. She gets some unexpected news about her grandmother dying. She has inherited her grandmother's house and needs to go and clean things out. When she gets there she sees that not much has changed over the years. It's as if the town has been stunted in time and everybody is pretty much the same. She has trouble sleeping and pills are not only able to give her that restful slumber, but it also brings about visions of a handsome man. She soon learns that this man is not just a figment of her imagination or manifestation of the drugs running through her veins. What will she do when she finds out and everything that she believed in was a lie? The proposition given to her by Ryker will forever change her perspective. The lights at the lake are not exactly what people think it is. It's something more otherworldly and she's about to take a journey that she's never going to forget. I had read couple of alien romance stories before but this one is unique. Lake Vespertine township has twelve full-time inhabitants, though others come through every once in a while to take in the scenery or simply escape civilization for a while. Before there was any kind of law and order in the area, Lake Vespertine was a hangout for gangsters, escaped prisoners and just about every other kind of criminal element you can imagine.

I love to read romance of all genres. Alien romance to leave on me a special experience and I really love reading them. This book is very good, full of surprises, with a good story line. I really enjoyed in these stories, and so far, this set of alien stories for me is the best. For all those who love the exciting alien romances, I recommend this set.

There are a lot of interesting characters in this book. As for the main character, she faced a lot of struggles and it was easy to get emotionally attached to her. I love how her life changes and the plot takes a different turn many times. I would recommend this for anyone into romance books.

The romance is really wonderful! I am very happy for having all these four books because each one has a unique and special way of telling an incredible story. Adrenaline rushing, heart pounding and a steamy one for everyone to read. Everyone will be 100% satisfied reading the book! Reading it you don't see time passing. It is really worth reading! I highly recommend it to everyone!

She gets some unexpected news about her grandmother dying. She has inherited her grandmotherÃ¢â€¢s house and needs to go and clean things out. When she gets there she sees that not much has changed over the years. ItÃ¢â€¢s as if the town has been stunted in time and everybody is pretty much the same. She has trouble sleeping and pills are not only able to give her that restful slumber, but it also brings about visions of a handsome man.

This story was a great idea. However the implementation fell way short. I hate when I think, "this doesn't make sense". And a lot of these stories don't make logical sense. By the time I got to the alien ship in the water I wanted to groan and throw up my hands! How rediculous!

This story is very good and well written. But it just wasn't a good read for me. I just couldn't finish it because the female character Kate was a bit of a push over. I scanned through the rest of the book, it ended well.

like the authorÃƒÂ¢Ã ¬Ã ªs way of writing this kind of novel. ItÃƒÂ¢Ã ¬Ã ªs not easy to write a romance story with a science fiction twist. I started to love Patricia MooreÃƒÂ¢Ã ¬Ã ªs work; she is such an incredible author. I really got hooked of this story, I so love it.
