## Customer Reviews

There are a few reasons why this book is subpar. 1. Not much Content! There is only 46 pages, each one only 3/4 of the way filled with info and written with a big font. 2. Written rather hastily. A "unique" writing style with grammar and spelling errors. 3. Limited photos all in black and white, except the cover photo, which looks like it was taken by a three year old with vision problems.....Seriously, the cover's pretty bad.
