Joss Whedon is the creator and guiding light behind Buffy the Vampire Slayer, Angel, Firefly and Dollhouse. He also wrote and directed the movie Serenity.

I bought this book for my daughter, expecting a book of sheet music. The book does have sheet music for all the songs, but also so much more. Over half the book consists of interviews, the entire script (which by definition includes the song lyrics, though the actors sing so well that lyrics are unnecessary) and tons of photos. So much fun, even for a non-musician. Joss Whedon, Felicia Day, Neil Patrick Harris, and Nathan Fillion, are all great actors and singers. A recipe for amazing. My daughter, an excellent pianist, found the music easy to sight-read. I, a fumbling around a bit pianist who sounds ok but doesn't know the bottom clef, found it a bit daunting. The guitar tabs are easy to read and play. Also, an aside about the show itself, though you probably already know this if you're considering buying the book. I love the politics behind Dr. Horrible's Sing-Along Blog. For those of you who may not know, during the TV writer's strike, Joss Whedon fought back and wrote "TV" anyhow, resulting in an amazing three-episode "musical TV miniseries" which he aired on the Internet. I'm proud and happy to own the video and book.

I have been a huge fan of this movie for years, so I figured I might as well order the book. Best. Decision. Of. My. Life. This book has the entire script to the show, and all of the script/lyrics to Commentary! The Musical, along with the complete sheet music!!! I also love reading the behind the scenes stuff, and overall it's an awesome addition to my library. Would definitely buy again, especially since there was someone selling this book for around \$10 instead of \$18 and it still arrived on time and in perfect condition.

I found Dr. Horrible on Netflix one late night. I've been a fan ever since. I watch it often. Then they came out with this Dr. Horrible Sing-Along Blog Book which is a companion guide to the DVD. Gives you a lot of information about the show including background information, fun items, and sheet music so you can sing it yourself! If you buy the DVD (I did!) then you MUST buy this book as well! Way to go Joss Whedon, Jed Whedon, Zack Whedon, Maurissa Tancharoen, Neil Patrick Harris, Felicia Day, Nathan Fillion and the whole gang!

Great book written by fans, for fans. I enjoyed the behind the scenes information and the inclusion of the original script. Very cool pictures from filming and behind the scenes. I can not recommend this book enough. Well written, edited and put together as a fitting tribute to one of my favorite video

shorts/ internet made movies. If Joss directed Avengers as well as he helped breath life into this I would be a much bigger fan of that movie.

My daughter is a HUGE Dr. Horrible fan - so much so that even though I myself haven't seen all of the episodes, I know several of the songs and lines from the series. We purchased this book for her for Christmas and she was thrilled when she opened it. She has hardly put it down. She loves the behind-the-scenes photos and notes, and especially can't wait to sit down to "officially" learn the music from the songs at the piano. The fact that the script is word-for-word is fun as well, and she has been at the computer, watching the show and following along (yes, she does have a life, but this is one of her favorite shows, along with Doctor Who - she just claims to be a bit of a nerd). This is really a must-have if you are a Dr. Horrible fan, or if you have one in your life.

I'm giving it 5 stars, because the contents are just so fantastic! Loved the behind the scenes stories, especially the portion with Shawna Trpcic on the costuming for the Blog! The behind-the-scenes photographs are lots of fun too! Many of the pages that are one-sheet pictures would be framable, if you wanted to buy two copies and cut up one copy! About 2/5ths of the book is sheet music, which I wish was a little larger, they could have maximized the size, but it will serve it's purpose! I can't wait to dust off the piano and guitars for it! Includes exactly what you'd expect of sheet music, the actual notes and chords above as well, with fret suggestions for the guitarists. The bad part, 10% of my book looks like somebody took light sandpaper to the pages and rubbed it around some. Or, more likely, when the pages were loose or something, someone swirled them around on a table like you would "go fish" with cards. It makes some of the pages look really crappy, obviously. I still gave the book 5 stars though as you can see, because it doesn't deserve a bad review for having a print job, that's on the assembler! I plan on contacting to see what they can do about this.

Do you listen to the Dr. Horrible Sing-A-Long Blog album to point that your co-workers/spouse/friends are ready to kill you? Do you know the words to all the songs? Do you try to introduce this gem of a movie to everyone you know? Then THIS is the book for you. It's full of behind the scenes information including costuming and locations. It includes all the sheet music - YES - all the sheet music. The art of the book is fun, colorful and well done which makes the book even more entertaining to read. I highly recommend this book as a lover of all things Dr. Horrible.

I already have Dr. Horrible memorized from the first "Muhahaha" to the credits, but I'm still thrilled

with the book! It's a great addition to my library and a great companion to the movie. If you're a fan, you won't regret snatching this up.
