Got this for my grandson's 5th birthday. His eyes were so big when he turned the pages. It was a great inspiration for him to begin to learn his sight words . Almost 9 months later , he can read the simple words, but great times reading to him. Includes many stories

Cute book. I have 2 kids that love Transformers, a 6 year old and a 14 year old. I wasn't sure which one this book would be more appropriate for, but I would say it is probably best for ages 7-10. But both my kids enjoy it.

My son's is obsessed with transformers! I was a little disappointed in the writing but my son loves two of the stories so much that we read them every night. All in all, I'm glad I bought it. Even if the

writing seems a bit disjointed at times.

Purchased this as a birthday gift for my youngest son (9). He loves reading but loves Transformers even more so this made the perfect gift. The book itself is huge and packed with page after page of amazing graphics. Any little one will enjoy.

This was a gift for my 5 year old grandson. I had to read every story to him before he would go to bed. He certainly knows all the characters. Nice color graphics.

This is a great bedtime book. Just long enough. My son loves these stories.

Birthday gift for a 4 year old - his dad seemed about as excited as the little boy when this was opened :)

My 5 year old LOVES this book and has to read it 2 times before bed for 2 weeks now. I'm frustrated but anything for my son haha. Great buy and WORTH IT!!!!!!!
