Supplement To Health Law: Cases, Materials And Problems (American Casebook Series)

Synopsis

For over a quarter of a century, this casebook has defined the field of health law, providing a balanced overview of the law as it affects patients, professionals, institutions, and entities that deliver and finance healthcare in the United States. Written without policy bias to reflect all viewpoints, the new Supplement, which will be available for classes beginning in August of 2016, will include new edited cases, notes and problems to address: North Carolina State Board of Dental Examiners v. FTC and analysis of its impact on state regulation of healthcare professionals; Gobeille v. Liberty Mutual, and ERISA preemption of state all-payer claims databases; Relevant statutory changes with regard to the Affordable Care Act, as well as King v. Burwell and House v. Burwell; MACRA and the move from volume based payments to value based payments such as MIPS and APMs, and new options for Medicare ACOs; Developments in Medicaid, including the Medicaid managed care rule and Armstrong v. Exceptional Child Center; United Health Services v. United States ex rel. Escobar (the propriety of the “false certification” theory under the False Claims Act); Antitrust cases involving significant mergers in health insurance, hospital, and physician markets; Whole Woman’s Health v. Hellerstedt, and other developments in abortion and contraception law; New developments in aid in dying in state legislatures and courts; Proposed changes to the Common Rule on research involving human subjects.

Best Sellers Rank: #205,792 in Books (See Top 100 in Books) #43 in Books > Law > Health & Medical Law > Health Law #2145 in Books > Textbooks > Law

Customer Reviews

Bought this for a class... It's easy to read/follow, great case examples to go along with the laws... felt that it is easier to read than most law books. (warning though, super sad- obviously this is a case

book, so you are reading things that went wrong and thus are examples of health law... depressing!)

I ordered this book by mistake but I had no problems returning it. It was very simple and fast.

This book is an excellent resource for learning the specifics of Health Law. It is easy to comprehend for any non-lawyer.

Didn't have everything I needed for class. Had to get the full version. The full version definitely met the goals of the class.
