Excellent Song Book

This guitar tablature book for Jonny Lang-Wander This World is the ideal publication for any guitarist who wants to play just like Jonny. The chords and lead solos are 100% accurate. This publication not only serves to give the reader the opportunity to play along with the album, or with their own group, but it gives a rare insight into Jonny's style of playing and writing. All the chords given will not only allow you to play along, but also add to your knowledge as a guitarist, and will never be forgotten. This is one of the reasons I like this book so much. Lyrics are also included for vocalists, as well as melody lines to get the pitch exactly right. There is not one bad thing about this book. Its content AND presentation are brilliant. Truly a must for all guitarists, whether you have just picked up a guitar for the first time, or if you have been playing the blues for decades, this book will breathe a new breath of life into your playing.!
