Average Customer Review: 4.6 out of 5 stars 229 customer reviews

Best Sellers Rank: #833,765 in Books (See Top 100 in Books) #88 in Books > Law >

Dictionaries & Terminology #8335 in Books > Textbooks > Law

## **Customer Reviews**

For current or future law students Black's Law Dictionary is an essential reference book for your library, and as one of my professors told me, "if you don't want an abridged education, don't buy the abridged version." You'll also gain access to an online version of Black's through any Westlaw account, but it's one version behind, and the UI isn't as easy to navigate. I think the hardcover dictionary is worth the money. Finally, a word about the Deluxe Edition: no. I can't see paying almost double for what it offers. My advice is to stick with the Standard Edition.

Fast service! Great product! Very pleased! Thank you!

Great book!

I bought Black's Law Dictionary when I was studying for pre-Law classes. It is the dictionary the college recommended for classes and one that will be used further down when practicing law. It is a good investment for anyone who is planning any time of law degree or is studying political science.

Needed in genealogy to understand some of the legal terms

This was a waste of my time and money. Any previous edition is a better resource and reference.

If you need information about law definitions this is a good book for it. It was delivered ahead of The date it was supposed to arrive.

I've first learned of this reference during my paralegal training. While working as an IP paralegal I found a copy of the Third Edition (circa 1933). I have the Eighth Edition in my library. I bought the Ninth Edition for my niece to have as a reference during her studies..com came through for me in a "clutch". Thanks .com!
