True Witch (Amber Lee Series Book 1)

Synopsis

From USA Today Bestselling author Katerina Martinez A beautiful stranger. Suspicious deaths. Magick unimaginable. I'm not a bounty hunter, I'm not a mercenary, I'm not anyone - I'm just a loner, a weirdo, a freak. But my life is about to get turned upside down, and I have no idea what's coming. It all starts with Damien Colt. Where I live, everyone knows everyone else, so when someone new enters the picture, it's difficult to miss them. I should have known he was bad news, should have smelled the specter of death clinging to him like a terrible shadow, but I didn't. Instead, I let him get close. Too close. Now I'm mixed up in business I had no right to get mixed up in, and I'm about to learn a truth about myself I'm not ready to hear. Magick is real, but it comes at a price; one I'm not ready to pay. For most Wiccans, real magick is a dream come true. For me, this is the beginning of a nightmare. Inspired by fantastic authors such as Karen Marie Moning, Richelle Mead, and Shannon Mayer, True Witch is the first book in Katerina's remastered Amber Lee series of urban fantasy novels. Like deep mysteries, magick so real you could almost touch it, and plenty of romantic twists and turns? This is the book for you! THE AMBER LEE SERIES 1. True Witch 2. Dark Witch 3. Shadow Witch 4. Red Witch 5. Devil's Witch Buy True Witch today, and dive into the mystery!

I started reading this book and couldn't put it down. Can't wait to read more about Amber, Damien and their friends.

Amber is one tough cookie. As the heroine of this outstanding novel she gets into a few scrapes but with the help of her friends and magic she accounts for herself well. I highly recommend this book.

I have read this series and fell in love with the story of Amber Lee and all the characters. This was a very fast paced..edge of your seat page turner that when one book was over you just had to have more. Very detailed tellings of the craft itself and just really took my breath away. I have searched for anything similar but this is in its very own league. You will not be disappointed. The characters are so well developed and the scenery just puts you right smack in the middle of the book. I am re reading this series and I cannot wait! Katerina's masterpiece. Thank you for returning to Amber Lee,. the True Witch

I really enjoyed this book. The story, characters and way that it is written... until the last couple of chapters. It's too rushed at the end and I found myself disappointed while reading because all of a sudden the pace picked up drastically. It would have been better if the pace had stayed closer to the rest of the book. I felt like I was missing out on too many details. I also found a bonus chapter? Or sample of book 2? Not sure what it is or why its just there randomly with no explanation or lead. It was good and got me excited for more but I don't know what exactly it is. Or where to find more. I'd like to know if it from book 2? It should have an introduction! And after a note from the author at that. Most people skip those and would never know that "extra" chapter is there. It was as if the author had a deadline to meet and the last quarter of the book got thrown together in a rush just to finish it. If not for that I would have definitely given 5 stars.

I love a good witch story and this was just that. Having read some of the authors later work though showed the areas where experience gained or lack thereof at the initial time of writing can be seen. That said, you would be foolish not to check it out as it lays the foundation of who and what Amber

Lee is and gives us an insight into what brought the members of her coven together. Amber Lee, as you can see from the title, is a witch (I'm a lover of things witchified) and she stumbles into a murder mystery of sorts which introduce her to dangers she never imagined would affect her. The other members of the coven offer the reader fun & quirky and a whole lot of hunk ÆfÂ Æ Å, Æ Æœ Æ â . Did I mention that there be witches in this here book. Definitely worth a read. A great series in the making. Recommended for 18+ as the book contains some sexual content.

This is a good start to what I'm sure will be an enjoyable series - I already can't wait to read number 2. It's a fast-paced read that introduces us to the characters and their home town, with a puzzle that sets the stage for the next book. I love how much care and research obviously went into the writing of the Wiccan rituals in the novel. While the 'flavors' of paganism I'm familiar with ascribe the elements to different directions and would call the quarters in a different order, the foundation is solid and helped to make the world of the series feel even more real to me. I anticipate enjoying the next book even more.

True Witch was a really enjoyable book to read. It was fun getting to know Amber Lee and her coven. Right now Amber is walking though uncharted territory and maybe in for a huge awakening. I'm very excited to see were this series is going to take us.

Absolutely love this book its amazing. Love Amber her character everything. I can picture myself being Amber
