Synopsis

Updated For 2017 Completely Based On Customer Feedback. Congratulations! You've Found The Ultimate Travel Guide To Thailand. Why You Need Lost Travelers First we would like to thank you for considering Lost Travelers as your guide book. Allow us to explain our beginnings, and the reason we created Lost Travelers. Lost Travelers was created due to one simple problem that other guides on the market did not solve; loss of time. Considering it's the 21st century and everything is available online, why do we still purchase guidebooks? To save us time! That's right. Since the goal is to be efficient and save time, we did not understand why there are several guidebooks on the market that are of 500 to 1000 page long. We do not believe one needs that much bluff to get an overview of the location and some remarkable suggestions. Considering many guidebooks on the market are filled with "suggestions" that were sponsored for, we have decided to take a different approach and provide our travelers with an honest opinion and decline any sort of sponsorship. This simply allows us to cut off any nonsense and create our guides the Lost Travelers style. Our mission is simple; to create an easy to follow guide book that outlines the best of activities to do in our limited time at the destination. This easily saves you your most valuable asset; your time. You no longer need to spend hours looking through a massive book, or spend hours searching for information on the internet as we have completed the whole process for you. The best part is we provide you our e-guides for one third the price of the leading brand, and our paper copy for only half the price. Customer Reviews

The Author has taken a little more details by providing information on some important things to quench your curiosity on the destination country like the Geographical and climate aspects of Thailand or your destination places are very important in case of any changes and then the details other nice places to visit like Chiang Mai.

Excellent guide of things to do and see in Thailand. Goes in depth even giving advice on what to wear, prices and things to be cautious of.As it sits it's n excellent value for the price. I was really hoping for some more general information and advice though. Like things to pack?, is it safe to drink the water?, How is currency handled?, can I get by not knowing thai? EtcStill, good read that I will reference again.

At the moment I am planning a trip to Thailand, I found this book by accident. I was actually looking for another one but I thought this one seemed even better. I find history very interesting, this book explained in detail Thailands history. Food, floating markets, culture and religion were some of the other subjects that really caught my attention. This book also has a lot of travel advices for tourists, you can also find the best places to visit to get the most out of your trip.

Much less detailed than one might expect from a travel book. Useful perhaps as a supplement to

trip advisor for those who don't want to spring for Lonely Planet.

The book is extremely short with very large print. This amounts to very little information on each area the book covers. If all you are looking for is a few paragraphs of information then this book is ok but for anyone wanting any details at all move on. This would be a great travel book for a small child but is not terribly useful for the traveler looking for in depth information.

Great Information!! I love to travel and I went to Thailand 8 years ago and planning to go again soon. I like the way the book was written. It's very useful guides for major places in Thailand. It outlines places to stay, time to visit and describe in such details all the destination and point of interest in all of them, full of ideas.

I love this guide! Bought it to get ready for my trip to Thailand, and it's a huge time saver! Got really good tips on what to do when I arrive to Thailand. Also got a really good tip on an island that I will visit, with telephone number to attractions and hotels.

Lots of great information and an easy read. I was expecting it to be a little more in depth but it gave a nice overview.
