String Builder, Bk 2: Cello (Belwin Course For Strings)

Synopsis

The Belwin String Builder is a string class method in which the violin, viola, cello, and bass play together throughout. Each book, however, is a complete unit and may be used separately for class or individual instruction. The material in this book is realistically graded so that only a minimum of explanatory material is required. Each melody is interesting and will provide the basis for a fine left hand technic and bow arm. Available in three levels for violin, viola, cello, bass, piano accompaniment, and teacher's manual.

Customer Reviews

A great way to learn!

GOOD :)

My daughter likes this method better than Suzuki. Suzuki is designed for little kids who can't read and emulate the teacher or sound. So this is better for older kids.

I have String Builder books for Violin 1 -4. The have helped me with my Violin so I got them for my Cello. They are just a wonderful. Have used the book through School, and My Son and Grandchildren also use them. The do help you build your skills.
