## **Customer Reviews**

Because the cultures from Mali to Mexico and points in between are in many ways different from ours, it is a treat to gain insights about them from an author who has been there. Most of the stories are told with a touch of humour, while the few that are more serious will leave you thinking about them long after you put the book down. This is the perfect book for reading in bed or when you can take a break. Mali to Mexico provides short, yet highly entertaining snippets of life and experiences

in these countries. Read one or two and save the next short story for another time. Be warned though: Like a box of chocolates, you'll be wanting to pick it up again soon to savour another one.

A collection of short stories and anecdotes that will mostly have you chuckling. Several will have you thinking, "I can relate to that."
