"Fodor's is pitched a few notches higher than aimed at a fairly discerning traveler with an appetite for background and the occasional surprise. • Fodor's New York Times "The Fodor's guides are notable for their ratings of sights, restaurants,

shops, accommodations and attractions. *Chicago Tribune* "In terms of comprehensiveness of coverage, the very accessible format, and the enthusiastic tone, this series remains one of the best on the market. *Booklist* "Fodor's super-informative guidebooks are known for accuracy and attention to detail. *Sacramento Bee* "Fodor's can help you plan the perfect adventure. *Arizona Republic*

Didn't seem terribly in touch with local experiences. I also notice there's no year number - I wonder how often they update it. Will probably try lonely planet next time, i think they have better-researched and more detailed books.

Fodor's is my tried and true "Go To" travel guide, and this one does not disappoint. Excellent descriptions of history and all the different regions. There is SO much to do it is super helpful to have all the recommendations. Descriptions of the safari camps and reserves is very helpful. I really can't say enough about Fodor's - they come through every time

Not great as the index is absolutely useless....skips some significant sites on any tourist's list! I needed to use this in conjunction with the Lonely Planet guide as neither have adequate indexes, nor do they cover everything. This could be much better!

Good guide for people travelling five star Hotels and above, I travel four stars and it was not that helpful. In the Stellenbosh area i did not see that the guide indicates the schedules to do the tour in the wine yards and so we missed the opportunity to do it.

Very helpful when planning my trip. Some things seemed outdated by a year or two but not bad. It still was very helpful in finding things to do that were a must do vs. nice to do if we have the time.

Information was not very insightful or useful. The kindle version was hard to use and hard to search.

Getting ready for a big trip. This book is a great resource that we are really enjoying. Lots of great travel advice for both beginning and seasoned travelers. Highly recommend.

So far, so good. We are using this book to plan on a safari and related sights in the spring. We travel extensively and Fodor has been a staple in this house for all our travel needs. This book is highly recommended.
