The Green Mysteries: An Occult Herbarium

Synopsis

The Green Mysteries is the product of twenty-five years of experiential research on the spiritual and occult properties of plants. Presenting a vast array of trees and herbs from many spiritual traditions, this exhaustive compendium examines their folklore, magical uses and spiritual essences. While presenting the material through both magical and mythopoetic narrative, the stance of the book is also grounded firmly in supportive disciplines such as botany, chemistry, and anthropology and also includes up to date phylogenetic and pharmacological findings. Interspersed with the encyclopedic plant entries are short narratives addressing such concepts as the Witches' Flying Ointment, intoxicating incense, the herbal dimension of Alchemy, and the Green Saints such as Al-Khidir, the medieval Wildman, and the forest-dwelling Nymphs who nourished the Greek gods. More than a mere collation of previously existing works on plants, much of the material is drawn directly from the author's private field notes, diaries, and manuals of magical operation, presented in an engaging narrative style. Illustrated with over 270 original illustrations by Benjamin Vierling, commissioned for the project.
