Customer Reviews

"Pull up a chair, pour yourself a glass of wine, and enjoy the friendship and hospitality found around Niequist's table. The author of *Cold Tangerines* and *Bittersweet* serves up portions of friendship, family, and faith, with sides of humor, insight, and favorite recipes, for a satisfying read that can double as a group study." - *Publisher's Weekly*, Mar. 26 "Bread & Wine is one of those rare books that grabs all of you -- your mind, body, and spirit. Shauna's soulful storytelling made me laugh, reminded me that I'm not alone, and gave me a new lens on some old struggles. There's something sacred about this kind of truth telling. I couldn't put this book down." - Brenna Brown, PhD, New

York Times bestselling author of *Â Daring Greatly: How the Courage to be Vulnerable Transforms the Way We Live, Love, Parent and Lead*"Bread & Wine is a new book about an ancient meal, but more than a meal, a book about the people seated at the table, and about the laughing, and about the joy of saying hello and the pain of saying good-bye. After reading this book you may feel as you do driving away from dinner with a friend -- grateful and full."- Donald Miller, author of *Â Blue Like Jazz* and *Â A Million Miles in a Thousand Years*"Shauna Niequist's beautiful word painting in Bread & Wine is a poetic reminder to appreciate the rituals, people, and sensory experiences of our everyday lives. Her words invite us into her kitchen, and her stories challenge us to remain attentive to the many delights that complement life's hardships and the ways in which we can share them with others."- Kelle Hampton, New York Times bestselling author of *Â Bloom: Finding Beauty in the Unexpected*"No one combines all my treasured things like Shauna does in Bread & Wine: beautiful words, delicious food, recipes like the ones you jot down on the back of a napkin in shorthand, with hints and adaptations written off to the side, real-life stories, laughter. Then I read a sentence like this: "Love isn't something you prove or earn, but something you receive or allow, like a balm, like a benediction, even at your very worst," and I decide to send this book to everyone I know."- Jen Hatmaker, author of *Â Interrupted* and *Â 7: An Experimental Mutiny Against Excess*Pull up a chair, pour yourself a glass of wine, and enjoy the friendship and hospitality found around Niequist's table. The author of *Cold Tangerines* and *Bittersweet* serves up portions of friendship, family, and faith, with sides of humor, insight, and favorite recipes, for a satisfying read that can double as a group study. (A discussion guide and recommended readings are tucked in the back of the book, with recipes and a sample menu for book/cooking clubs.) Niequist writes with vulnerability and honesty that make the reader hunger to be one of the friends and family members who grace her table. Struggles with getting pregnant, juggling family and career, and making time for deep friendships are among the life events discussed against the backdrop of meals. Cooking enthusiasts, whether they are experienced or are novices, will enjoy the talk about food and will want to try the recipes featured at the end of each chapter. Yet while recipes for bacon-wrapped dates and dark chocolate sea-salted butter toffee sound yummy, the emphasis is more on spiritual nourishment and how God feeds hungry souls through relationships. Bread and Wine resurrects the table as the center of the home, the place where food and drink morph into fellowship and long memories. This book transported me back to the kitchens of my life --- to the fellowship and joy and sorrow of what happens when the family gathers around the table to

be family. Churches need books about kitchen tables because they value the home and family and the treasured memories of family stories told at the table. -- Scot McKnight, Northern Seminary

Bam! Yummo! This is a tasty and delicious book you'll want to savor from cover to cover. -- Margaret Feinberg, Author of *Wonderstruck* and *Scouting the Divine*, (www.margaretfleinberg.com)

Shauna Niequist has written a book of surpassing delight. To enter it is not simply to be a reader but to be a friend. I did not want it to end. -- John Ortberg, senior pastor of Menlo Park Presbyterian Church and author of *Who Is This Man?*

This magnificent book is a feast for the soul! A wise, thoughtful, and delightful read that will nourish your heart. -- Ian Morgan Cron, bestselling author of *Jesus, My Father, the CIA, and Me: a Memoir . . . of Sorts* and *Chasing Francis*

Shauna Niequist has a way with words that makes you feel more human, more alive. Every phrase is woven together in a way that inspires wonder at the most ordinary of events we are prone to pass by. This book will make you hungry --- not just for food, but for life and love to the full. It certainly did for me. -- Jeff Goins, author of *Wrecked: When a Broken World Slams into Your Comfortable Life*

I told myself upon receiving this book that I would read it slowly, savoring it like a well-aged Port. Well, forget that idea. I guzzled this book like light beer. It was so, well, me. I believe one of the keys to really enjoying this type of literature is finding a deep connection to the author - that the author is someone who you think, "I could hang out with this person for an evening." Mid-way through this book I told my wife and a good friend. "Shauna is the female version of me." While I don't write half as eloquently as Shauna, I think I've shared her sentiments about food, hospitality and joie de vivre on multiple occasions - around tables, cooking with the guys in my cooking club or even, on occasion from the pulpit. So, I have nothing bad to say about this book. If you love food, hospitality, cooking, wine and just-for-the-fun-of-it dinner parties; if your idea of a great night is a house full of people and a whole afternoon spent cooking and smiling as you anticipate your guests; if you love having people in your home; if your idea of a good dinner is one that lasts several hours; if you love to give a good toast - to lock eyes with the people you love across a candlelit table and tell them why they're important to you; if you believe that everything is spiritual, and maybe especially food; if you love a well crafted sentence and rich metaphor, then this is your book. My only argument with this book is some of the early reviews I've seen. To quote one, "this is a wonderful book for women" For women? I'm not a woman, and I loved it. Why, in the Christian world must we keep perpetuating the notion that men write serious books about theology and leadership, while books about food and hospitality and sucking the marrow out of life are somehow "women's lit?" Or that the gift of hospitality is somehow a "woman's gift," and the serious gifts of leadership are for the guys. Yes, Shauna writes about motherhood, childbirth, and getting into her bathing suit come summertime. But, somehow, she does it in a way that I can connect to - after all, I'm married to a woman and I've heard her talk about all those things. And even if I were not, I'm still interested, there are still parallels to my life. While my shame issues aren't related to my "underbutt" (a term I've never heard before this book!) - I've got plenty of "swimsuit" issues in my life. And, there are plenty of us guys out there who love to throw a party - who care about candles, music, a well-set table and making a great soufflé, who love to employ our words, knife skills and ability to make a killer salsa, as gifts to the people we love. So, let's be done with this silliness. I don't think Shauna intends for hospitality to be a "women's issue," and you shouldn't either.

I am an unabashed fan of Shauna Niequist. I fell in love with her writing the first time I read *Cold Tangerines*. I've since read that book multiple times and have lent it to several friends. *Bread and Wine*, though somewhat of a departure, as it did focus primarily on food, is written in a similar vein.

The chapters are vignette style and each are followed with a recipe that featured somehow in the vignette. I tried to savor it slowly, but I ended up gobbling them quickly. Some were sweet, some were savory and some required a pause between bites. I don't know Shauna, but through her words I feel like I do. She shares her heartaches and joys and presents them all with a vulnerability that was so relatable. I wish she was my sister, my neighbor, my friend. I've come to understand that she can have quite the fabulous life, but you know what? She never once name drops or rubs it in your face. She enjoys her life & lives it to the fullest with humility. I am not an advanced cook by any means, but this book has given me courage to try. I love how she tied this in with the kitchen and food and family. Get in the kitchen, get messy, create something fabulous, create something not-so-fab, just try it. And the same goes for life - be present, get messy, be glamorous - just be there. Don't be a bystander in your own life. I read this on my Kindle (it was on sale & Shauna Niequist - so, duh, I HAD to buy it, haha), but I will definitely own a real copy of this book.

The book is not just about the food. It's about the gathering. The loving. The savoring. As I hosted guests this week, and as we dined with good friends tonight, I found my mind returning to Shauna's reflections on life lived around the table. Great read with warmth, love, and deliciousness wrapped into it.

Food, friends, family and wine have all been closely related to each other in my life so when a friend recommended this book to me, I knew it was going to be a winner. I have to say I feel as if the author and I are kindred souls because I myself will spend the afternoon joyfully cooking and anticipating my dinner guests. I look forward to making toasts with friends while drinking a particularly fine bottle of Chianti. I feel so moved by Shauna, the author, and how eloquently she phrases things (not to mention the heavenly meal combinations she's put in the book) that I am simply besotted with this book. I admit it's the first novel I've read from the author, but this was so well written and skilfully crafted that I will definitely be picking up a few of her other books.
