Dragon Kin: Sapphire & Lotus

Synopsis

The ancient prophecy speaks of the five, those who will come to save all of dragonkind. Like most prophecies, it leaves out a lot of the important details. The very ordinary elf girl who runs for the hills and gets lost in a forest instead. The dragon egg, precariously perched high in a tree on a dark winter's night. And what happens when egg meets girl. Dragon Kin: Sapphire & Lotus is book one of a new fantasy series for readers of all ages. If you love dragons, ordinary heroes, or bravery that has to be earned one day at a time, we hope you'll give this book a try!

Customer Reviews

I've read the first two books of this series and I'm loving them. Faye writes with a warmth and intelligence that makes her books easy to read. This series addresses themes of facing your greatest fears and the ways that friends and found family can support each other; all with the fun added element of a world where dragons are real. As in her other series, Faye writes happy endings

without being too sappy and leaves me looking forward to reading the next installment from this world.

Simple messages of courage, perseverance, and mutual respect, wrapped up in a fresh storyline! You never leave an Audrey Faye book without feeling like the characters could be your best friends. This is just another favorite in a list of Audrey Faye authored comfort reads! ãfÃ ã Å,Ã ÆœÃ Å

3 1/2 stars. A good coming of age story of girl saving a dragon egg, and both growing into their bonded dragon partnership. A starting place for girls in fairy tale style.

Always enjoyed Audrey's writing, and this book is no exception. There is a lot of creativity and emotion in her style. I definitely would recommend reading this book.

Story is fun but not alot happens I'm hoping we will get some kind of action in the next book. This book basically about a girl and her dragon traumatized for a stupid reason trying to get over there stupidity to learn how to fly. That's basically all that happens but its written ok and theres adragons and elves so meh.

If you love Anne McCaffrey's Pern, and dragons in general, you will love this book. Sapphire is darling, and her little peach-colored dragon Lotus is an adorable terror--rather like my own sugar gliders. And don't ask me why I equate gliders with dragons. They're nothing alike, and yet they are in my mind. Do read this. You won't regret it.

The author writes with a style that lets you feel like you're in there too. This is the second book of hers that I have read, and I am anxiously awaiting the next one. My only complaint is that it ended so soon. As an older reader I am used to the longer novels. I'll just have to get used to this modern style. Loved the book.

Really enjoyed this story, great beach read! It was fun and heart warming and left me excited for the next book!
