## Customer Reviews

Oblong Sm Octavo, 1995, PP.102, Watercolors by Elizabeth Blackadder

Love this book for the watercolor illustrations by Elizabeth Blackadder! This is good for getting an idea of how another artist uses watercolor to illustrate flowers of many kinds.

This book represents a lovely combination of watercolor sketches/studies with essays on both the flowers and the art of painting. The sketches have some of the detail one expects in botanical studies and yet the freedom and delight of artistic license. Both a wonderful book for the senses and the student.
