Customer Reviews

As an AOT fan myself, I for one enjoyed this volume. The volume itself was amazing, and the story just seems to keep getting better from there. This special edition specifically, I didn't enjoy too well. I love these special edition releases, and they should definitely do more in the future, but this one was a waste of money. The only reason i'm giving it four stars is cause of the volume itself is fantastic, but there was no slip cover so it was kinda useless to buy the special. The ova isn't that good either.

Let me start by saying I love this anime and watched all 26 episodes three times. I decided to get the Manga because other fans said the manga included additional information not included in the anime. Attack on Titan 5 has a small part in the beginning that is not in the anime but Books 6 & 7 are like the anime. I don't have the Books from 1-4 but I'm thinking of getting them because there's supposed to be more information about Marco's character. Attack on Titan 9 I ordered with 5, 6, and 7. They all came together in great condition and earlier than expected. The drawing is not bad. Some people said Isayama-san is not a very good artist but I think his art work is good. It's not Hakuoki but it is still good. The story continues to be compelling. Book 9 covers other characters and not Eren, Mikasa, Armin or Levi (my favorites) but sheds additional information on the Titans. I need to buy book 8 because the Anime's episode 26 is in Book 8 but there's also additional information that brings you to Book 9. Can't wait for Book 10 and 11 to become available.

My son absolutely loves this series and this was a great price

great book

works great

It's a great series if your transitioning from the anime to manga where you can find out more about the characters in the manga but I was to happy that it came in opened already the plastic must have tore during shipping but other then that everything is okay.

I like it. If you're getting this, remember the DVD is subtitled.

This is the only manga aside from Naruto where I felt compelled to buy the entire series! I am in love with this manga, probably one of the best I've read! This special edition adds a nice touch to the book, I love the box, can't wait to put it on display!
