This book is really helpful especially that I'm trying to switch all my cleaning products to something organic and natural. Me and my daughter both get allergies to strong smells especially from chemicals in cleaning products. I think it is very healthy and economical to use natural products for cleaning especially when there are little kids around. Good book.

I'm working towards getting rid of harmful chemicals and replacing them with natural ingredients and one of the easiest areas to do this is with my cleaning products. I really like this book because it provides enough recipes to do everything you need to do to clean your house, but not so many that it's overwhelming and frustrating. She also gives tons of cleaning tips, many of which had never occurred to me. Great book!

Wow, what a collection of recipes for cleaning your home. I found the instructions easy to follow. There was also no need for hard to find ingredients. Everything you need can be purchased from the grocery store, hardware store or drug store.

Lots of great recipes and ideas for natural cleaning solutions. I knew about a few simple things

before but now I know so much more. I especially liked the info about why these things work and about the ingredients in commercial cleaners.

nothing new you couldn't get off a quick goggle search or pinterest. Bland book really

Love this book , has a lot of easy and safe cleaners . You can save lots of money and keep your house Clean without lots of harmful chemicals ,,

Very useful and informative book. One that you will want to keep handy so you can try these simple, but effective recipes.

I am beginning my education to live off the grid. Coming up with my own recipes for everything is one of my goals and now I can do it with cleaning.
