When it says "piano duet", it literally means one piano. These pieces are designed to be played by two people sitting side by side at one piano, not for two pianists on different pianos. (You cannot play one hand of one, and one of the other, to try and play it by yourself, at least, I couldn't.) The songs are really pretty, and not extremely difficult. Most pieces also have a key change.

Gorgeous arrangements of praise and worship music. Phillip Keveren has arrangements that are songs familiar to most all congregations, very playable with absolutely beautiful, colorful chords that give "Wow!" moments.

Beautiful songs! Not too difficult, but challenging enough for the intermediate pianist.

I bought this for a piano student to work up a quick duet for a recital. It has nice arrangements that are easily worked up.

love it

These arrangements are beautiful, and there is a nice variety of musical styles. They fit well in a worship setting (not ridiculously flashy) and are accessible to most players.

This book has provided lots of fun for me and my husband. It is easy enough for us just to sit down and play without hours of practice and it still sounds good.
