## Customer Reviews

My 8 year old reads and rereads these types of books well. The quality on these is poor with pages falling out on the first read through.

I bought these for my 9 year old son, and he read them all cover-to-cover. He loved the concept of the choose-your-own-adventure book. These books are wonderful to encourage reading and imagination in young readers.

Bought these for my 11 year old. I remembered how much I loved them as a kid, and wanted to share that experience with her. She loved them too. Such a great way to spur the imagination and ignite a love for reading.

Great books that help connect a parent's childhood to that of their kids. I have read these books with

my 7 year old daughter and she loves the fact that she gets to choose the direction of the story. She's a strong reader and having to make choices for the character further emphasizes the importance of her understanding what she is reading and not just going through the motions of saying the words. Overall I would recommend these books!

Love these books. Reading them with our kindergartner, and they are great at teaching both the importance of considering choices, and how stories play out differently based on our choices.

Love these classics! Wow! What a blast from my past. This is a great value so I don't see how you can go wrong, especially when introducing them to a new generation of readers. \*\*\*If you have never read this series before you must note that they are a little dated and old fashioned!!!! Please note the publication years.\*\*\* That being said, they are still wonderful.

Loved these books when I was a kid. Hoping my son will love them too.

Read these when a kid. Great historical information
